sir alex issigonis favourite car written by an acknowledged motoring expert this is a highly informative account of an innovative and award winning car

randall s book is no ordinary text about automobiles it combines a love of cars with references to buildings and spaces that played a part in london s motoring history this enjoyable read may have a niche audience but it makes a fun addition to displays and collections library journal there are plenty of ways to delve into the history of a city like london but it s not often done through the world of the motor car but that s exactly what chris randall has done exploring the links between the capital and its automotive past that makes this book a somewhat unique approach to the subject and readers will discover a fascinating history that involves some of the most famous names in motoring enthusiasts will certainly recognise the likes of aston martin bentley and rolls royce but amongst those are names that might be less familiar today the buildings that you ll find within this book all exist today which means you can see the motoring history for yourself some are now famous restaurants others are offices and a few are private homes but what they all have in common is the automobile and for those that love all things four wheeled there are some real treasures to be found illustrated with photographs that show you what those places look like today along with how some of them appeared in their motoring heyday this is a very different look at the history of the famous city it s played a part in the very earliest days of the automobile s story and that s something this books sets out to celebrate

in 1968 british leyland brought together many of britain s motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big european conglomerates but this was not to be there have been many books about the politics and the business activities of british leyland but british leyland the cars 1968 1986 looks exclusively at the cars that came from the company both the models it inherited and those it created the eighteen years of the corporation s

existence saw a confusing multitude of different car types but this book resolves these confusions clarifying who built what and when the book takes 1986 as its cut off point because this was the year that the old british leyland ceased to exist and what was left of the car and light commercial business was renamed the rover group the book includes production histories and technical specifications of every major model the special overseas models appendices on engines code names and factories buying guidance on the models built in britain this is the most comprehensive book so far to focus on the cars from british leyland between 1968 1986 and it provides an overview of each model s production history together with essential specification details it is profusely illustrated with 178 colour and 63 b w photographs

this essential guide offers all the tools necessary to negotiate for the best price including reliability ratings profiles and crash test results for more than 210 new car models
